TCS - GRIDIAN, CHENNAI

TATA CONSULTANCY SERVICES

OPERATING LOCATIONS

TCS Techno Park
Siruseri

TCS Techno Park, Siruseri is situated on Chennai's IT Highway, the symbol of the city's technology power with 24,000 seating capacity. Interestingly, it is the same highway leading to the historic old town of Mahabalipuram and is also known as the Old Mahabalipuram Road (OMR). In a sense it epitomizes the typical Chennai ethos that bridges the traditional and the contemporary.

Being truly an engineering and architectural marvel, the Techno Park is unique in the way it blends both business and lifestyle statements. It combines elements of traditional Indian architecture with modern design. An aerial view of the complex resembles six butterfly wings interwind with a central spine.

This unique structure has won the "Best Architecture Award" at the International Property Awards for the year 2011 and many more accolades – "Best Office Architecture Asia Pacific", "Best Office Architecture India" to name a few.

TCS Synergy Park
Gachibowli

The development areas in Synergy Park derive north light from the northern side, and open onto a north lit common space on the southern side. There is no light from the south, which prevents direct sunlight into the structure.

There is rich, good-quality diffused natural light in the work and common areas. The facility is extremely energy efficient, with air conditioning load as less as 1TR per 440 sqft as against 180-225 sqft in most other facilities.

Synergy Park is an approved Special Economic Zone and it serves global TCS customers in industry segments like Telecom, Media & Entertainment, Government, Healthcare & Life Sciences, Hi-tech, Manufacturing, Retail as well as Banking & Financial Services with a focus on technology areas like enterprise solutions, assurance, infrastructure and IT services.

TCS Adibatla
Hyderabad

TCS Adibatla master plan unifying concept is the creation of an Urban Street, around which all major components of the project are arranged. The street is designed to mimic the excitement, energy and bustle of a typical Indian street. The campus is in a special economic zone with total built up area of approximately 4.21 million sqft, multilevel car parking having place for 4117 cars, an auditorium of 750 seats & amphitheatre for approximately 1800 associates. It has recreational block having facility for Gymnasium, water body, Lawn & Table tennis, Squash, Badminton, Basket ball & Cricket Nets.

It has three software and one BPO block with each Block having G + 6 structures & each floor with seating capacity of 1000 associates. Each of these floors have multiple physically separated zone having own dedicated hub & meeting rooms. It has a state of an art security controls to meet current security norms.

TCS Sahyadri Park Pune

Sahyadri Park is spread over 48 acres of land with capacity for 24,000 associates and is one of the major locations chosen to grow offshore operations in India. It is surrounded by the rolling hills of the Sahyadri ranges on three sides, and provides a beautiful setting for creative software specialists to develop, maintain and support software systems and Business Processing Services.

The facility is a GREEN Campus and has Zero discharge site, Rainwater Harvesting and Sewage Treatment Plant.

Pune city has become the top choice of young Indian IT engineers and BPS professionals because of its location, excellent weather, great connectivity and relaxed cosmopolitan lifestyle, inspirational work environment.

TCS Seven Hills Park
Cincinnati

The facility opened its doors in March 2008 and quickly became TCS's primary center for software development in North America. There are nine Fortune 500 companies headquartered in Cincinnati and more than 350 Fortune 500 companies have a significant presence in the region. Over the past five years, the 650-seater campus has created immense value for TCS's customers as well as the community, and it has brought the company closer to its high-value North American clients while boosting the job prospects of youth from local universities.

The Cincinnati campus not only delivers breakthrough solutions for enterprises, its community initiatives are a trailblazer as well. The story of the leadership trail is a good example of how the TCS Cincinnati campus looks beyond business to a more holistic ideal of corporate responsibility. This facility also enables Collaborative Exploration and Experimentation into Drone Use Across Industries.

TCS TATA4
Guadalajara

TCS Mexico began its operations in Mexico City in 2003 and opened its Global Delivery Center in Guadalajara in 2007 in the form of TATA4. Since its inception, we have provided advanced and specialized IT services, consulting, testing, software development, business process outsourcing, contact center, IT infrastructure solutions, industrial and engineering services for clients across North America.

TCS became the first Indian IT company with a presence in Mexico and the first to establish a development center in the country. Now, the company has two development centers, in Guadalajara and Querétaro, and offices in Mexico City.

The Guadalajara center is certified with the highest levels of quality and service. Moreover, TCS has an internal system IQMS, aligned to international standards ISO 9001, ISO 20000, ISO 27000, TL 9000, as well as the models CMMI level 5 and PCMM level.
